CDOT's 2019 Field Materials Manual  
CP-52 Contractor Asphalt Mix Design Approval  
Procedures  
2018 Number 1, Page 1 of 1  
Date: August 10, 2018

## **CDOT's 2019 Field Materials Manual CP-52 Contractor Asphalt Mix Design Approval Procedures**

This materials bulletin replaces CP-52 of the *2019 Field Materials Manual*. The RAP aggregate bulk specific gravity will be back-calculated using an assumed average aggregate water absorption of 1.01%. The corresponding assumed aggregate asphalt absorption will be 0.61. The corresponding CDOT Form # 429 has also been updated.

It is your responsibility as the owner of your *2019 Field Materials Manual* to print these pages for replacement within your printed copy of the manual. If you have questions, please contact Michael Stanford at 303-398-6576.
